BATTERY POWERED YARD CARE EQUIPMENT REBATE

Mowing an average sized lawn using a gas-powered mower can produce the same amount of pollution as a 100-mile car trip.

Did you know gasoline powered yard care equipment lack strong emission controls and are widely recognized as a major source of air pollution? Millions of gallons of fuel are spilled each year during refueling and these spills can make their way into our drinking water. Switching to electric yard care equipment can significantly reduce the quantity of pollutants released into the environment each year.

Your New York municipal electric utilities and the Independent Energy Efficiency Program (IEEP) are sponsoring this program to encourage their customers to upgrade their yard care equipment to electric battery powered equipment.

To receive your rebate without delay, fill out both sides of this form completely and mail (or email) to the address below, along with:

- **A copy of your dated sales receipt showing the make and model number of the equipment purchased**
- **A copy of your most recent electric bill showing that you are a municipal electric utility customer**

Mail to: IEEP, P.O. Box 2489, Syracuse, New York 13220-2489, or email to IEEPRebates@meua.org
(Please *do not* send this form with your utility bill payment)

GENERAL TERMS AND CONDITIONS:

1. All rebates will be limited to a maximum of 25% of the purchase price. For example, if the final purchase price is $200 for a battery powered mower, the rebate will be reduced to 25% of the final cost, including sales tax and any manufacturer rebates applied, for a total rebate amount of $50.
2. Each electric account will be limited to $500 of incentives for the life of this program.
3. Equipment must be purchased new, and not be refurbished.
4. This program will end December 31, 2027 or while funds last. The IEEP reserves the right in its sole discretion to terminate or modify this program at any time.
5. Rebate forms must be submitted within 6 months of purchase date.
6. Corded equipment is not eligible for this rebate.
7. Your electric utility and the IEEP assume no responsibility for performance of equipment and equipment warranty.
8. The IEEP reserves the right to inspect or verify purchase of rebated equipment.
9. Customers are responsible for any such tax implications associated with this rebate.
10. The customer relieves the electric utility and IEEP of any and all liability associated with this project.
11. The customer verifies that they have not received other incentives from other state and/or federal rebate programs for the same equipment being requested in this form.
