Applicant Michael Beatty would like to create a "flag" building lot for a new single family residential building in the southeast corner of his property. Minimum lot size is 85' x 100'. This lot, where it would be placed, would exceed these dimensions. The setbacks are shown on the survey and within limits.

There are easements for both a gas line and a water line that feed Rauch Drive. Village of Springville DPW has noted that with the location of the house, the driveway will need to cross over these easements and if this needs to be dug up for repairs, the Village will not replace the Page 2 Planning Board Meeting August 10, 2021

pavement. They will need to run a sewer line at their expense and will be able to tap the water into that easement line.

All necessary paperwork has been filed as well as the Village of Springville's Department Input sheet has been returned along with any requirements from those Departments if determined.

With that in mind, the Planning Board declared this application a Type II SEQR, requiring no further action, and all necessary parties have been notified. Member Ken Heidle made the motion, seconded by Member Ed Young, to declare the SEQR, all in favor, none opposed.

They wish to replace it with a 24 x 100 ft pole barn in the same place extending further to the north.

Mr. Kaleta went on to say that the setback to the side property line has been calculated to be about 23 feet. The 23 feet fits well within setback requirements for this property. There is no actual paper survey showing the proposed building, applicant submitted maps and partial surveys.
